

VOLARIS

This luminaire is an impressive combination of low investment cost, high efficiency and usability.

The direct/indirect light distribution and the high light output ratios are two advantages that give Volaris a wide range of possible applications, especially in offices, communication rooms and training facilities. The spots, which can be separately switched, give the user maximum design freedom and satisfy the requirement for possible accent lighting on workplace.

The VOLARIS surface-mounted luminaire provides perfect lighting comfort and uniform, glare-free lighting. The luminaire unit impresses with its low profile, while slim-line design is emphasised by its curved soft contours.

VOLARIS LED

This luminaire is an impressive combination of low investment cost, low power consumption, high efficiency and usability.

The direct/indirect light distribution and the high light output ratios are two advantages that give Volaris a wide range of possible applications, especially in offices, communication rooms and training facilities.

Technical Features

- Body of aluminum profile, painted electrostatically in selected colour.
- High efficient microprismatic PMMA cover or louvre selection.
- PMMA upside transparent cover.
- With or without spot selection for pendant version.
- Adjustable suspension consisting of stainless steel cable and regulators.
- Connection for operation on 230V-50/60Hz with electronic ballast.

Upon Request

- Connection for operation on 230V-50/60Hz with dimmer dali or 1-10VDC ballast.
- Connection for emergency lighting system (only for T16 edition).

For LED Version

- High efficient satin PMMA cover.
- Pure light without IR/UV radiation.
- Operation life: 50,000 hours with efficiency > 70% of the initial luminous flux.
